INDICES

Volume 43 (2002)

Thanks

to the experts who support the Editorial Board

The editors wish to express their gratitude and appreciation to all authors, and to all those specialists in radiology, physics and other fields who have so greatly contributed to the process of reviewing the manuscripts for *Acta Radiologica.* We sincerely hope that this sometimes very difficult and time-consuming analysis of manuscripts has been of value in their own research and not only a burden.

Anders Hemmingsson Johan Edgren Thorkild Mygind Arnulf Skjennald

SUBJECT INDEX TO VOLUME 43 (2002)

Neuroradiology

MR follow-up of small experimental intracranial haemorrhages from hyperacute to subacute phase 2
MR angiography in the follow-up of coiled cerebral aneurysms after treatment with Guglielmi detachable coils 10
Embolization of cranial/spinal tumours and vascular malformations with hydrogel microspheres. An experience of 69 cases 15
CT angiography in the assessment of carotid artery atherosclerosis. A comparative analysis with MR angiography with reference to contrast angiography and intravascular ultrasound 116
MR imaging of pituitary adenomas treated with the prolactin inhibitor quinagolide 125
Three-dimensional MR visualization of the intracisternal course of the cranial nerves V–VIII by virtual cisternoscopy 242
MR findings of spontaneous intracranial hypotension 249
High-resolution carotid artery MRA. Comparison with fast dynamic acquisition and duplex ultrasound scanning 256
Dynamic susceptibility contrast-enhanced echo-planar imaging of cerebral gliomas. Effect of contrast medium extravasation 354
Reliability of perfusion MR imaging in symptomatic carotid occlusive disease. Cerebral blood volume, mean transit time and time-to-peak 360
Comparative evaluation of cerebral blood volume and cerebral blood flow in acute ischemic stroke by using perfusion-weighted MR imaging and SPECT 365
Experimental intracerebral and subarachnoid/intraventricular haemorrhages. MR detectability at 0.5 T and 1.5 T 464
Oligodendrogliomas. A comparison of CT and MR imaging features with histological malignancy grading in 20 cases. A pathoradiological study 474
Vertex epidural hematoma – neuroradiological findings and management. A case report 483
Evaluation of pituitary adenomas by multidirectional multislice dynamic CT 556
Conventional and diffusion-weighted MR imaging of intracranial tuberculomas. A case report 560
Hemorrhagic brain metastases with high signal intensity on diffusion-weighted MR images. A case report 563

Head and Neck Radiology

CT characterization of inflammatory paranasal sinus disease in cystic fibrosis 21
Review article. US-guided fine-needle aspiration biopsy of thyroid nodules 131
MR of a nasal glioma in a young infant. A case report 141
Ectopic thymic tissue in the paediatric age group 144
Early postoperative tissue harmonic sonography of the thyroid gland 147
Capsular distance in the hip of the healthy child – normal values with sonography and MR imaging 213
Differential diagnosis between thymoma and non-thymoma by dynamic MR imaging 262
Thyroid volume measured by ultrasonography and CT 269
Thymic lesions and myasthenia gravis. Diagnosis based on mediastinal imaging and pathological findings .. 380
The transradial approach for selective carotid and vertebral angiography 549
CT appearances of unilateral cleft palate 20 years after bone graft surgery 567
Volume of cervical lymph nodes using 3D ultrasonography. Differentiation of metastatic from reactive lymphadenopathy in primary head and neck malignancy 571

Musculoskeletal Radiology

MR imaging of the neural foramina of the cervical spine. Comparison of 3D-DESS and 3D-FISP sequences 96
A rig for acquisition of standardized trabecular bone radiographs 101
Short communication. Relapsing hydatid disease involving the vertebral body and paravertebral soft tissues 192
Dynamic contrast-enhanced MR imaging and histopathology in chronic Achilles tendinosis. A longitudinal MR study of 15 patients 198
MR imaging, bone scintigraphy, and radiography in bone stress injuries of the pelvis and the lower extremity 207
Gray-scale and Doppler ultrasound imaging features of vascular canals in human femoral condylar epiphysis 217
Acetabular inclination and anteversion in infants using 3D MR imaging 221
MR signal intensity characteristics in Legg-Calvé-Perthes disease. Value of fat-suppressed (STIR) images and contrast-enhanced T1-weighted images 329
Imaging features of subperiosteal aneurysmal bone cyst 336
Ganglion cysts of the cruciate ligaments. MR findings with clinical correlation 419
Fluoroscopy-guided intraarticular corticosteroid injection into the sacroiliac joints in patients with ankylosing spondylitis 425
Primary muscular hydatidosis. US, CT and MR findings 428
Partial and complete tear of the anterior cruciate ligament. Direct and indirect MR signs 511
Acetabular component migration in total hip arthroplasty using CT and a semiautomated program for volume merging 517
Association between joint bleeds and Pettersson scores

in severe haemophilia 528
CT findings in skeletal cystic echinococcosis 533
Osteopenia and osteoporosis in postmenopausal women. Assessment by radiogrammetric measurement 609
Partial tear of pectoralis major muscle masquerading as a breast mass in an 87-year-old woman. A case report 615

Breast

Utility of the tumor bed marker in patients with breast cancer receiving induction chemotherapy 29
Differentiation of phyllodes tumors versus fibroadenomas. Mammographic and sonographic features . . 34
Value of MR imaging in clinical evaluation of breast lesions 275
Comparison between high-resolution helical CT and pathology in breast examination 385
Dynamics of contrast enhancement in MR imaging and power Doppler ultrasonography of solid breast lesions 492
Percutaneous vacuum-assisted core breast biopsy with upright stereotactic equipment. Indications, limitations and results 575
Evaluation of axillary status in breast cancer. CT-based determination of sentinel lymph node size 579
Partial tear of pectoralis major muscle masquerading as a breast mass in an 87-year-old woman. A case report 615

Cardiovascular System

CT angiography in the assessment of carotid artery atherosclerosis. A comparative analysis with MR angiography with reference to contrast angiography and intravascular ultrasound 116
Lateral thoracic artery embolization in cystic fibrosis. A case report 167
High-resolution carotid artery MRA. Comparison with fast dynamic acquisition and duplex ultrasound scanning 256
Review article. Scoring systems for grading deep leg vein thrombosis 299
Portal venous variations. Prevalence with contrast-enhanced helical CT 315
Plasma endothelin, nitric oxide and atrial natriuretic peptide levels in humans after abdominal angiography 340
Selection of patients with infrainguinal arterial occlusive disease for percutaneous transluminal angioplasty with duplex scanning 391
Treatment of femoral pseudoaneurysms. Percutaneous US-guided thrombin injection versus US-guided compression 396
Review article. Restenosis after balloon angioplasty and/or stent insertion – origin and prevention. A review of the literature 442
Echo-planar MR imaging of dissolved hyperpolarized ^{129}Xe. Potential for MR angiography 455
Acute myocardial infaction in a patient with unstable angina. A case report 461
Negative spiral CT in acute pulmonary embolism 486
The transradial approach for selective carotid and vertebral angiography 549
Evaluation of methods for MR imaging of human right ventricular heart volumes and mass 587
Influence of two non-ionic radiographic contrast media with different osmolalities on coagulation in invasive cardiology. A prospective, randomised comparative study 617

Chest Radiology

Airway changes in children with mucopolysaccharidoses. CT evaluation 40
Correlation of immunologic status with high-resolution CT and distributions of pulmonary tuberculosis . . . 44
Visual grading of emphysema severity in candidates for lung volume reduction surgery. Comparison between HRCT, spiral CT and "density-masked" images . . . 48
Reproducibility of scoring emphysema by HRCT 54
Emphysema in heavy smokers with normal chest radiography. Detection and quantification by HRCT . . 60
Review article. Ultrasound-guided percutaneous thoracoabdominal biopsy. Efficacy, cost-effectiveness and safety 152
HRCT findings in the lungs of primary care patients with lower respiratory tract infection 159
An unusual radiographic finding in pulmonary parenchymal endometriosis. A case report 164
Lateral thoracic artery embolization in cystic fibrosis. A case report 167
Assessment of regional lung ventilation in dog lungs with Gd-DTPA aerosol ventilation MR imaging . . . 282
Early chest radiography and CT in the diagnosis, management and outcome of invasive pulmonary aspergillosis 292
Subcutaneous chest ports via the internal jugular vein. A retrospective study of 117 oncology patients 371
Contrast enhancement of round atelectases 376
Negative spiral CT in acute pulmonary embolism 486

Gastrointestinal Radiology

Bowel wall visualisation at CT colonography 87
Jejunojejunal intussusception secondary to lipoma in an adult. A case report 196
Bowel cleansing methods prior to CT colonography. A prospective, comparative, randomized blinded study 306
Meckel's diverticulum and mesenterium commune in a patient with gastrointestinal bleeding 312
Perforations and fistulae in gastrointestinal tuberculosis 501
Videofluoroscopy of deglutition in children after repair of esophageal atresia 507

Reliability of endosonography in evaluation of anal fistulae and abscesses 599

Liver, Biliary Tract

Depiction of vasculature in small hepatocellular carcinoma, and dysplastic nodules evaluated with carbon dioxide ultrasonography and angiography 66
Accuracy of CT in local staging of gallbladder carcinoma 71
Interobserver agreement in ultrasound examination of the biliary tract 77
MR and ultrasound in screening of patients with suspected biliary tract disease 80
MR characteristics of acute cholangitis 175
Efficacy of sequential use of superparamagnetic iron oxide and gadolinium in liver MR imaging 180
A new liquid embolic material for liver tumors. An animal experimental study using Onyx 186
Portal venous variations. Prevalence with contrast-enhanced helical CT 315
On the appearance of bile in clinical MR cholangiopancreatography 401
Intravenous contrast-enhanced Doppler sonography and intra-arterial carbon dioxide-enhanced sonography in the assessment of hepatocellular carcinoma vascularity before and after treatment 411
Detection of common bile duct stones before laparoscopic cholecystectomy. Evaluation with MR cholangiography 593

Abdominal Radiology

Continuous ambulatory peritoneal dialysis. CT peritoneography findings and assessment of related clinical complications 170
Short communication. Peritoneal calcifications in a patient on continuous ambulatory peritoneal dialysis . 194
Herniographic findings in athletes with unclear groin pain 603

Urogenital System

Renal ultrasound findings and their clinical associations in *nephropathia epidemica*. Analysis of quantitative parameters 320
Short communication. Lymphoma of the cervix. Imaging and transcatheter arterial embolization 431
Short communication. Lithiasic inguinoscrotal herniation of the bladder secondary to prostate enlargement 543

Endocrine System

Endovascular treatment of massive retroperitoneal haemorrhage due to inferior adrenal artery injury. A case report 326

Lymphatic System

Image-guided fine-needle aspiration cytology of deep-seated enlarged lymph nodes 230
Non-Hodgkin's lymphoma in McKusick syndrome. A case report 415
Volume of cervical lymph nodes using 3D ultrasonography. Differentiation of metastatic from reactive lymphadenopathy in primary head and neck malignancy 571

Pediatric Radiology

Airway changes in children with mucopolysaccharidoses. CT evaluation 40
MR of a nasal glioma in a young infant. A case report 141
Ectopic thymic tissue in the paediatric age group 144
Capsular distance in the hip of the healthy child – normal values with sonography and MR imaging 213
Acetabular inclination and anteversion in infants using 3D MR imaging 221
MR signal intensity characteristics in Legg-Calvé-Perthes disease. Value of fat-suppressed (STIR) images and contrast-enhanced T1-weighted images 329
Videofluoroscopy of deglutition in children after repair of esophageal atresia 507
Association between joint bleeds and Pettersson scores in severe haemophilia 528

Ultrasonography

Utility of the tumor bed marker in patients with breast cancer receiving induction chemotherapy 29
Differentiation of phyllodes tumors versus fibroadenomas. Mammographic and sonographic features . . 34
Depiction of vasculature in small hepatocellular carcinoma, and dysplastic nodules evaluated with carbon dioxide ultrasonography and angiography 66
Interobserver agreement in ultrasound examination of the biliary tract 77
MR and ultrasound in screening of patients with suspected biliary tract disease 80
Review article. US-guided fine-needle aspiration biopsy of thyroid nodules 131
Ectopic thymic tissue in the paediatric age group 144
Early postoperative tissue harmonic sonography of the thyroid gland 147
Review article. Ultrasound-guided percutaneous thoracoabdominal biopsy. Efficacy, cost-effectiveness and safety 152
Capsular distance in the hip of the healthy child – normal values with sonography and MR imaging 213
Gray-scale and Doppler ultrasound imaging features of vascular canals in human femoral condylar epiphysis 217
Image-guided fine-needle aspiration cytology of deep-seated enlarged lymph nodes 230
Thyroid volume measured by ultrasonography and CT 269

Review article. Scoring systems for grading deep leg vein thrombosis . . . 299
Renal ultrasound findings and their clinical associations in *nephropathia epidemica*. Analysis of quantitative parameters . . . 320
Selection of patients with infrainguinal arterial occlusive disease for percutaneous transluminal angioplasty with duplex scanning . . . 391
Treatment of femoral pseudoaneurysms. Percutaneous US-guided thrombin injection versus US-guided compression . . . 396
Intravenous contrast-enhanced Doppler sonography and intra-arterial carbon dioxide-enhanced sonography in the assessment of hepatocellular carcinoma vascularity before and after treatment . . . 411
Non-Hodgkin's lymphoma in McKusick syndrome. A case report . . . 415
Primary muscular hydatidosis. US, CT and MR findings . . . 428
Dynamics of contrast enhancement in MR imaging and power Doppler ultrasonography of solid breast lesions . . . 492
Short communication. The use of video glasses at ultrasound-guided interventions . . . 539
Volume of cervical lymph nodes using 3D ultrasonography. Differentiation of metastatic from reactive lymphadenopathy in primary head and neck malignancy . . . 571
Reliability of endosonography in evaluation of anal fistulae and abscesses . . . 599

CT

CT characterization of inflammatory paranasal sinus disease in cystic fibrosis . . . 21
Airway changes in children with mucopolysaccharidoses. CT evaluation . . . 40
Correlation of immunologic status with high-resolution CT and distributions of pulmonary tuberculosis . . . 44
Visual grading of emphysema severity in candidates for lung volume reduction surgery. Comparison between HRCT, spiral CT and "density-masked" images . . . 48
Reproducibility of scoring emphysema by HRCT . . . 54
Emphysema in heavy smokers with normal chest radiography. Detection and quantification by HRCT . . . 60
Accuracy of CT in local staging of gallbladder carcinoma . . . 71
Bowel wall visualisation at CT colonography . . . 87
CT angiography in the assessment of carotid artery atherosclerosis. A comparative analysis with MR angiography with reference to contrast angiography and intravascular ultrasound . . . 116
HRCT findings in the lungs of primary care patients with lower respiratory tract infection . . . 159
An unusual radiographic finding in pulmonary parenchymal endometriosis. A case report . . . 164
Continuous ambulatory peritoneal dialysis. CT peritoneography findings and assessment of related clinical complications . . . 170
Jejunojejunal intussusception secondary to lipoma in an adult. A case report . . . 196
Image-guided fine-needle aspiration cytology of deep-seated enlarged lymph nodes . . . 230
Thyroid volume measured by ultrasonography and CT 269
Early chest radiography and CT in the diagnosis, management and outcome of invasive pulmonary aspergillosis . . . 292
Bowel cleansing methods prior to CT colonography. A prospective, comparative, randomized blinded study 306
Portal venous variations. Prevalence with contrast-enhanced helical CT . . . 315
Contrast enhancement of round atelectases . . . 376
Thymic lesions and myasthenia gravis. Diagnosis based on mediastinal imaging and pathological findings . . 380
Comparison between high-resolution helical CT and pathology in breast examination . . . 385
Non-Hodgkin's lymphoma in McKusick syndrome. A case report . . . 41
Fluoroscopy-guided intraarticular corticosteroid injection into the sacroiliac joints in patients with ankylosing spondylitis . . . 425
Primary muscular hydatidosis. US, CT and MR findings . . . 428
Acute myocardial infaction in a patient with unstable angina. A case report . . . 461
Oligodendrogliomas. A comparison of CT and MR imaging features with histological malignancy grading in 20 cases. A pathoradiological study . . . 474
Vertex epidural hematoma – neuroradiological findings and management. A case report . . . 483
Negative spiral CT in acute pulmonary embolism . . . 486
Acetabular component migration in total hip arthroplasty using CT and a semiautomated program for volume merging . . . 517
CT findings in skeletal cystic echinococcosis . . . 533
Evaluation of pituitary adenomas by multidirectional multislice dynamic CT . . . 556
CT appearances of unilateral cleft palate 20 years after bone graft surgery . . . 567
Evaluation of axillary status in breast cancer. CT-based determination of sentinel lymph node size . . . 579

MR Imaging and MR Spectroscopy

MR follow-up of small experimental intracranial haemorrhages from hyperacute to subacute phase . . . 2
MR angiography in the follow-up of coiled cerebral aneurysms after treatment with Guglielmi detachable coils . . . 10
MR and ultrasound in screening of patients with suspected biliary tract disease . . . 80
MR imaging of the neural foramina of the cervical

spine. Comparison of 3D-DESS and 3D-FISP sequences 96
MR imaging of pituitary adenomas treated with the prolactin inhibitor quinagolide 125
MR of a nasal glioma in a young infant. A case report 141
MR characteristics of acute cholangitis 175
Efficacy of sequential use of superparamagnetic iron oxide and gadolinium in liver MR imaging 180

Dynamic contrast-enhanced MR imaging and histopathology in chronic Achilles tendinosis. A longitudinal MR study of 15 patients 198
MR imaging, bone scintigraphy, and radiography in bone stress injuries of the pelvis and the lower extremity 207
Capsular distance in the hip of the healthy child – normal values with sonography and MR imaging 213
Acetabular inclination and anteversion in infants using 3D MR imaging 221
Three-dimensional MR visualization of the intracisternal course of the cranial nerves V–VIII by virtual cisternoscopy 242
MR findings of spontaneous intracranial hypotension 249
High-resolution carotid artery MRA. Comparison with fast dynamic acquisition and duplex ultrasound scanning 256
Differential diagnosis between thymoma and non-thymoma by dynamic MR imaging 262
Value of MR imaging in clinical evaluation of breast lesions 275
Assessment of regional lung ventilation in dog lungs with Gd-DTPA aerosol ventilation MR imaging . . . 282
MR signal intensity characteristics in Legg-Calvé-Perthes disease. Value of fat-suppressed (STIR) images and contrast-enhanced T1-weighted images 329
Imaging features of subperiosteal aneurysmal bone cyst 336
Dynamic susceptibility contrast-enhanced echo-planar imaging of cerebral gliomas. Effect of contrast medium extravasation 354
Reliability of perfusion MR imaging in symptomatic carotid occlusive disease. Cerebral blood volume, mean transit time and time-to-peak 360
Comparative evaluation of cerebral blood volume and cerebral blood flow in acute ischemic stroke by using perfusion-weighted MR imaging and SPECT 365
Thymic lesions and myasthenia gravis. Diagnosis based on mediastinal imaging and pathological findings . . 380
On the appearance of bile in clinical MR cholangiopancreatography 401
Ganglion cysts of the cruciate ligaments. MR findings with clinical correlation 419
Primary muscular hydatidosis. US, CT and MR findings 428
Short communication. Lymphoma of the cervix. Imaging and transcatheter arterial embolization 431
Echo-planar MR imaging of dissolved hyperpolarized ^{129}Xe. Potential for MR angiography 455
Experimental intracerebral and subarachnoid/intraventricular haemorrhages. MR detectability at 0.5 T and 1.5 T 464
Oligodendrogliomas. A comparison of CT and MR imaging features with histological malignancy grading in 20 cases. A pathoradiological study 474
Vertex epidural hematoma – neuroradiological findings and management. A case report 483
Dynamics of contrast enhancement in MR imaging and power Doppler ultrasonography of solid breast lesions 492
Partial and complete tear of the anterior cruciate ligament. Direct and indirect MR signs 511
Conventional and diffusion-weighted MR imaging of intracranial tuberculomas. A case report 560
Hemorrhagic brain metastases with high signal intensity on diffusion-weighted MR images. A case report 563
Evaluation of methods for MR imaging of human right ventricular heart volumes and mass 587
Detection of common bile duct stones before laparoscopic cholecystectomy. Evaluation with MR cholangiography 593

Nuclear Radiology

MR imaging, bone scintigraphy, and radiography in bone stress injuries of the pelvis and the lower extremity 207
Comparative evaluation of cerebral blood volume and cerebral blood flow in acute ischemic stroke by using perfusion-weighted MR imaging and SPECT 365

Interventional Radiology

MR angiography in the follow-up of coiled cerebral aneurysms after treatment with Guglielmi detachable coils 10
Embolization of cranial/spinal tumours and vascular malformations with hydrogel microspheres. An experience of 69 cases 15
Utility of the tumor bed marker in patients with breast cancer receiving induction chemotherapy 29
Review article. US-guided fine-needle aspiration biopsy of thyroid nodules 131
Review article. Ultrasound-guided percutaneous thoracoabdominal biopsy. Efficacy, cost-effectiveness and safety 152
Lateral thoracic artery embolization in cystic fibrosis. A case report 167
A new liquid embolic material for liver tumors. An animal experimental study using Onyx 186
Behaviour of the 2.1-mm (14 G) automated biopsy needle in phantoms 225

Image-guided fine-needle aspiration cytology of deep-seated enlarged lymph nodes 230
Endovascular treatment of massive retroperitoneal haemorrhage due to inferior adrenal artery injury. A case report 326
Subcutaneous chest ports via the internal jugular vein. A retrospective study of 117 oncology patients 371
Selection of patients with infrainguinal arterial occlusive disease for percutaneous transluminal angioplasty with duplex scanning 391
Treatment of femoral pseudoaneurysms. Percutaneous US-guided thrombin injection versus US-guided compression 396
Intravenous contrast-enhanced Doppler sonography and intra-arterial carbon dioxide-enhanced sonography in the assessment of hepatocellular carcinoma vascularity before and after treatment 411
Fluoroscopy-guided intraarticular corticosteroid injection into the sacroiliac joints in patients with ankylosing spondylitis 425
Short communication. Lymphoma of the cervix. Imaging and transcatheter arterial embolization 431
Review article. Restenosis after balloon angioplasty and/or stent insertion – origin and prevention. A review of the literature 442
Echo-planar MR imaging of dissolved hyperpolarized ^{129}Xe. Potential for MR angiography 455
Short communication. The use of video glasses at ultrasound-guided interventions 539
Percutaneous vacuum-assisted core breast biopsy with upright stereotactic equipment. Indications, limitations and results 575
Evaluation of axillary status in breast cancer. CT-based determination of sentinel lymph node size 579

Experimental Radiology

MR follow-up of small experimental intracranial haemorrhages from hyperacute to subacute phase 2
cAMP and cGMP do not mediate the vasorelaxation induced by iodinated radiographic contrast media in isolated swine renal arteries 104
A new liquid embolic material for liver tumors. An animal experimental study using Onyx 186
Assessment of regional lung ventilation in dog lungs with Gd-DTPA aerosol ventilation MR imaging . . . 282
Feasibility and assessment of non-invasive *in vivo* redox status using electron paramagnetic resonance imaging 433
Echo-planar MR imaging of dissolved hyperpolarized ^{129}Xe. Potential for MR angiography 455
Experimental intracerebral and subarachnoid/intraventricular haemorrhages. MR detectability at 0.5 T and 1.5 T 464
Acetabular component migration in total hip arthroplasty using CT and a semiautomated program for volume merging 517

Contrast Media and Other Drugs

Depiction of vasculature in small hepatocellular carcinoma, and dysplastic nodules evaluated with carbon dioxide ultrasonography and angiography 66
cAMP and cGMP do not mediate the vasorelaxation induced by iodinated radiographic contrast media in isolated swine renal arteries 104
MR imaging of pituitary adenomas treated with the prolactin inhibitor quinagolide 125
Efficacy of sequential use of superparamagnetic iron oxide and gadolinium in liver MR imaging 180
A new liquid embolic material for liver tumors. An animal experimental study using Onyx 186
Dynamic contrast-enhanced MR imaging and histopathology in chronic Achilles tendinosis. A longitudinal MR study of 15 patients 198
High-resolution carotid artery MRA. Comparison with fast dynamic acquisition and duplex ultrasound scanning 256
Assessment of regional lung ventilation in dog lungs with Gd-DTPA aerosol ventilation MR imaging . . . 282
Plasma endothelin, nitric oxide and atrial natriuretic peptide levels in humans after abdominal angiography 340
Dynamic susceptibility contrast-enhanced echo-planar imaging of cerebral gliomas. Effect of contrast medium extravasation 354
Contrast enhancement of round atelectases 376
Treatment of femoral pseudoaneurysms. Percutaneous US-guided thrombin injection versus US-guided compression 396
Intravenous contrast-enhanced Doppler sonography and intra-arterial carbon dioxide-enhanced sonography in the assessment of hepatocellular carcinoma vascularity before and after treatment 411
Fluoroscopy-guided intraarticular corticosteroid injection into the sacroiliac joints in patients with ankylosing spondylitis 425
Echo-planar MR imaging of dissolved hyperpolarized ^{129}Xe. Potential for MR angiography 455
Oligodendrogliomas. A comparison of CT and MR imaging features with histological malignancy grading in 20 cases. A pathoradiological study 474
Dynamics of contrast enhancement in MR imaging and power Doppler ultrasonography of solid breast lesions 492
Perforations and fistulae in gastrointestinal tuberculosis 501
Influence of two non-ionic radiographic contrast media with different osmolalities on coagulation in invasive cardiology. A prospective, randomised comparative study 617

Physics and Technique

Correlation of immunologic status with high-resolution

CT and distributions of pulmonary tuberculosis . . . 44
MR imaging of the neural foramina of the cervical spine. Comparison of 3D-DESS and 3D-FISP sequences . . . 96
Behaviour of the 2.1-mm (14 G) automated biopsy needle in phantoms . . . 225
On the appearance of bile in clinical MR cholangiopancreatography . . . 401
Feasibility and assessment of non-invasive *in vivo* redox status using electron paramagnetic resonance imaging . . . 433
The transradial approach for selective carotid and vertebral angiography . . . 549
Evaluation of pituitary adenomas by multidirectional multislice dynamic CT . . . 556

Research and Methodology

Visual grading of emphysema severity in candidates for lung volume reduction surgery. Comparison between HRCT, spiral CT and "density-masked" images . . . 48
Reproducibility of scoring emphysema by HRCT 54
Emphysema in heavy smokers with normal chest radiography. Detection and quantification by HRCT . . 60
Bowel wall visualisation at CT colonography 87
MR imaging of the neural foramina of the cervical spine. Comparison of 3D-DESS and 3D-FISP sequences . . . 96
A rig for acquisition of standardized trabecular bone radiographs . . . .
